

## **Easton Village News Report to Easton Annual Parish Meeting on 20 April 2026**

It has been my pleasure to edit the Easton Village News for the past few years.

I have always believed it is really important to have an information link for the village - to inform, engage and entertain readers in all the aspects of our village life and sometimes beyond. In an increasingly digital world, I think it is good to have a printed magazine for those who either prefer it or don't have easy access to a computer.

I endeavour to include reports and information from all the various organisations that form the backbone of our village (sometimes with more success than others!). I have always deliberately tried to avoid political issues - I think there is far too much in the way of politics in our lives already!

The magazine is distributed to 95 households (out of 160), ie those who have subscribed. As well as subscribers, and some donations, advertisers form an important element of covering printing costs.

I always welcome input from everyone in the village – and particularly other ideas for one off or regular features.
